Description of Property and Eligibility Determination: *(Use continuation sheet if necessary and attach map and photo)*

13711 Woodmore Road is a two-story frame, gable end house with one-story telescoping additions on each end. The main block is three bays with a central entrance now enclosed with a projecting semi-hexagonal bay. Windows overall are three over one sash. The steeply pitched roof is covered with synthetic tile. The siding is vinyl or aluminum. A single brick chimney rises in the east gable interior end but within the north (front) roof elevation. There is a semi-circular gable vent with louvers in the east gable. A shed-roofed full front porch is supported with bracketed posts. The house sits on a low hill facing north toward Woodmore Road. East of the house are two frame agricultural buildings on concrete foundations.

**Eligibility Determination**

This house is listed in the Prince Georges County tax assessment records as constructed in 1936. Certain architectural elements however indicate a possible earlier date of construction including the steeply pitched roof, asymmetrically placed chimney, and gable vent. The 1878 G.M. Hopkins Atlas map indicates a building at or near this location under the name of Jonathon Brooke. The house and its associated agricultural buildings are considered significant as examples of 19<sup>th</sup> and possibly 18<sup>th</sup> century vernacular architecture in Prince Georges County. Further research would help to pinpoint the actual construction date of this house.
